ACUTOUCH

HANDS AS JUMPER CABLES

Jin Shin Jyutsu is the oldest recorded healing art (over 2000 yrs. old). Back then, they discovered the "Flow" of Energy throughout the body's pathways. And, that by using the hands (finger tips) as "jumper cables" on two points, simultaneously, it facilitated or sparked the "Flow" through blockages in the pathways. Thus, regaining balance or harmony in the Body/Mind/Spirit. First there was "Flow" and the use of the hands, then came "meridians" and needles. "Flow" is the Animating Life Force from the Creator of All That Is.

THE 5 FORCES OF "FLOW"

We tend to think of the organs in the body as a physical part that may malfunction, when in-fact, the organs, with their tandem partners, are the epicenters of **specific** energies of the over-all "Animating Force":
Stomach/Spleen - Trust & Faith
Kidney/Bladder - Gentleness & Peace
Liver/Gall Bladder - Kindness & Sweetness
Lung/Lg. Intestine - Courage & Force
Heart/Sm. Intestine - Love & Joy

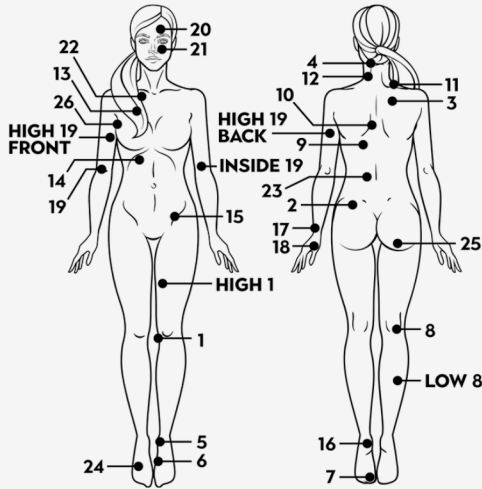

Jin Shin AcuTouch (based on Jin Shin Jyutsu®) - Jin Shin is based on an ancient Oriental Healing Art, brought to the United States from Japan by Mary Burmeister and called Jin Shin Jyutsu®. Its roots are grounded in one of the oldest Healing Arts and was first recorded in 712 AD, and what is known in Japan as the "Record of Ancient

Things. Acupuncture, Shiatsu and many other energy Healing Arts are derived from similar roots. Originally practiced in the home, it was passed down from generation to generation of Japanese families who use these simple everyday treatments for themselves and others. I owe my respect and gratitude to Betsy Ruth Dayton of High Touch Jin Shin, as she was my teacher. And where I have been an Instructor for over 30 years.

Betsy studied with Mary Burmeister as one of her first students and Betsy wrote her thesis on Jin Shin and created Vol. 1 & 2 which make the depths of Jin Shin Jyutsu more easy to work with and understand. In studying the body's energy system, Jin Shin AcuTouch is a gentle placing of the fingertips on certain points of the body to help release blockages in the body's energy flow. This Energy System (meridians) maintains the balance of the flow of the life-force to every cell in every function of the Human Experience.

There are 26 bilateral energy release points (and each one tells a life story - Jin Shin is also known is a "physio-philosophy" with the depths of meanings of the 26 points, or energy spheres or "safety energy locks". You can feel the "textures" of the energy as it flows/circulates through the body in your finger tips. A blockage in this flow results in an imbalance and leads to all dis-ease. It's flow interrupted, a point becomes congested and cannot nourish or cleanse. This area can be sensitive or tender when touched. It may be bloated or puffy as the body seeks to protect the area made vulnerable by the blocked flow. Holding or touching these congested points in a specific pattern will release the blockage. The releasing action is much like using jumper cables to jump start a car. The energy from our hands "Sparks" the body's energy system where it is blocked. Once the congested point or circuit breaker is opened, the nourishing and cleansing flow can continue. We will feel a light pulsation in our fingertips signaling to us that all is clear and then we can move our hands to the next Point designated in the sequence. Changes will begin to occur immediately. "It's like Acupuncture with your hands as the needles. These changes continue to happen for several days. Notice the way the body releases blocked energy. Often there will be dramatic rumbling in the stomach, warmth, fluttering, less pain, or more pain when the blockage is considerable. These movements are indications that your body is healing. Relax with them. Know that the body seeks balance and that your purpose is to support your body.

THE JIN SHIN 26 POINTS

THE WELLNESS FACTOR® www.TheWellnessFactor.org

THE 26 ENERGY POINTS

The "points" or "energy spheres" are bi-lateral, meaning on both sides of the body. The same on the organ meridian Flows. Ex, (see below Stomach Meridian). The points are each a story, and a "numerology definition" and located in specific locations. Again, they are bi-lateral - one on each side of the center line of the body.

A few of my favorite treatments on yourself:

- **Detox/Brain Fog** - Put both tips of hands under the butt on the "Sit-Bones" - sit on your hands for 3 to 5 minutes.
- **Move All Things Forward** - Sit with both knees forward, cross hands and hold with finger tips or "tap" on the number 1 points (inside knee).

The 3 hour class

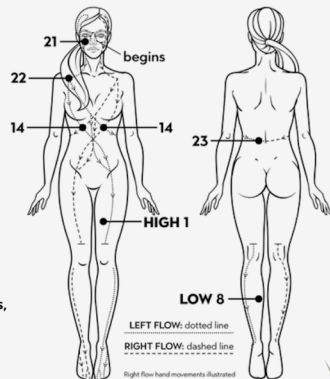

Learn to treat yourself or others using your hands as "jumper cables" to The Creators Flow, to direct energy and begin healing.

The 3 hour class will cover treatments for all 12 meridians. Plus, specific hand patterns for "common ailments", fever, infections, abdominal issues, cramps, sore throat and most all ailments common to humans and animals!

Each of the Energy points on the human body (animals alike) are not just points; they are spheres that are about 2" to 3" in diameter. They are energy spheres, that are aspects or a story of positive life/creation emergence. They are not at their full positivity/potential as we hold negative or low vibrations of emotions (All Emotions Buried Alive, Never Die). They are lessons we must learn. Jin Shin IS a physio-philosophy to discover WHO/WHY YOU ARE. It gives you a guide to discover lower dimensional thoughts and beliefs that do not support YOU. Points (refer to chart) They are bilateral. Meaning on both left and right of the body. The Meanings of the 26 Points – Gateways of Spirit into Matter – 26 Stories of our Bliss & Challenge.

Ancient Chakra Balancing

This is The Most Powerful "treatment" anywhere on the planet! Doing this will balance ALL the meridians and is especially powerful with breath and/or mantra/vibration.

Do not do the mantra or vibration before bed, as it will energize you. But upon waking or if energy is low or depressed or sick, then adding vibration (OM) will energize you immensely.

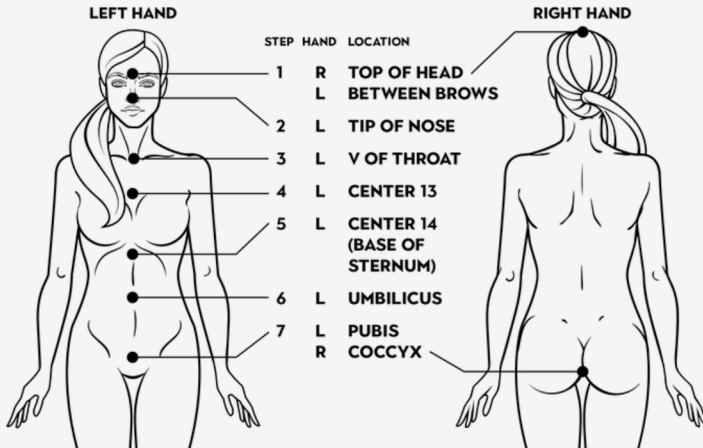

How To Do The Central Harmonizer

Best to do lying down. Follow the legend with your hands/finger tips. Right hand finger tips on top of the head and the Left finger tips at the center of the brow. Hold for 2 to 5 minutes. Then keep the Right hand on top and move through to the pubic (2-3 minutes each). Finally, keep the Left hand on the pubic and move your right hand to under the tail bone.

THE MAIN CENTRAL VERTICAL

Using the fingertips as touch pads to feel the energy release, proceed in descending order, moving the designated hand after the energy pulse is felt.

STEP 1 **TOP OF HEAD & BETWEEN BROWS**
Light comes in, directs energy; revitalizes deep body energy; removes mental bondage; improves memory.

STEP 2 **TIP OF NOSE** Energizes pineal and pituitary glands, brain; revitalizes superficial body energies; provides adaptability.

STEP 3 **V OF THROAT** Balances thyroid gland; opens center of communication; regulates water balance, fat and sugar metabolism and calcium level; revitalizes brain and reproduction.

STEP 4 **CENTER 13 (MID STERNUM)**
Helps thymus, vitamin D metabolism, growth hormones; strengthens immune and reproductive systems; removes grief to aid lungs and breathing; opens heart and pelvic cavity.

STEP 5 **CENTER 14 (BASE OF STERNUM)** Balances spleen, adrenal functions, hormone secretions, digestive enzymes, liver and gall bladder functions; builds blood system; provides balance.

STEP 6 **UMBILICUS** Power center, hub of all body function; balances sympathetic nervous system; harmonizes reproductive organs, heart, spine, and motor nerve control; revitalizes descending energy.

STEP 7 **PUBIC BONE & COCCYX**
Draws energy down, connects and revitalizes ascending energy; clears pelvic energy; aids circulation to legs and feet.
